PROFILE

CSE student building practical desktop software with Python, C++, OOP, PySide6, and SQLite. Hands-on experience developing management applications with real user workflows, persistent data, and structured application architecture. Seeking opportunities to grow as a software developer.

TECHNICAL SKILLS

Languages	C, C++, Python
Framework	PySide6
Database	SQLite
Core	OOP, Encapsulation, Inheritance, Polymorphism, Classes & Objects
Tools	Git, GitHub

SELECTED PROJECTS

Student Management System

Python • PySide6 • SQLite • OOP

- Built a desktop student-management app with secure admin login, dashboard, student profiles, search, and record management. Implemented attendance, payments, revenue reporting, CSV export, and persistent SQLite storage using a separated model/repository/service architecture.

Travel Agency Management System

Python • PySide6 • SQLite • OOP

- Built a desktop travel-management app covering customer accounts, travel packages, search, bookings, and booking history. Implemented date-based seat availability, multi-traveler booking, transaction references, cancellation/refund status, and separate customer/admin workflows.

Library Management System

C++ • OOP • In Development

- Developing a C++ library-management application, applying OOP and structured data handling to practical library workflows.

EDUCATION

B.Sc. in Computer Science & Engineering — Canadian University of Bangladesh, Dhaka | Currently Studying

Higher Secondary Certificate (HSC) — Science — Willes Little Flower School & College | 2025

Secondary School Certificate (SSC) — Science — St. Gregory's High School & College | 2023

LANGUAGES

Bangla: Native / Proficient English: Upper-Intermediate (B2)
